Quick Guide to Dodeka Music

How It Works

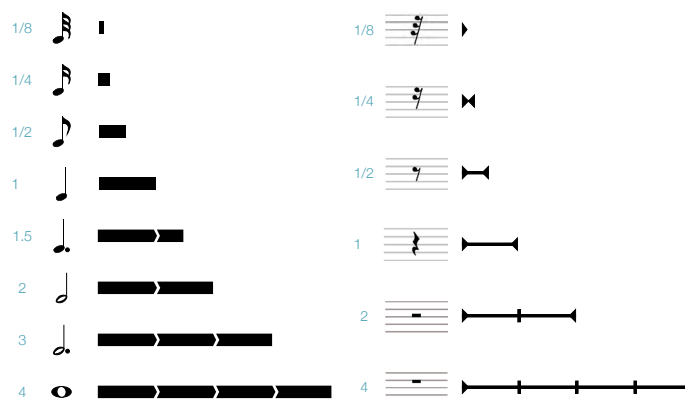

Pitch

With Dodeka Music, there are 12 notes for 4 lines. Notes are easy to recognise. They go either - *on, above, below or between* - the lines and keep their position between octaves. Sharps, flats and the likes are simply gone, awesome right?

Rhythm & Rests

Rhythm with Dodeka is also more intuitive. It is now visual and clearer. Simply look at the note's length and you know its duration. Exact same principle for rests.

How to read Dodeka's sheet music

1. right hand stave
2. left hand stave
3. beats
4. beat type & key
5. eighth note
6. rest
7. dotted quarter note
8. inbetween octave's lines
